#### Qualification Overview

The purpose of this **FAQ Level 2 Certificate in Preparing to Work in a Manufacturing Environment** is to provide the learner with the basic knowledge needed to help secure employment within an engineering manufacturing environment. This qualification has been developed in consultation with employers who are keen to bring new entrants, who have little or no previous experience of a manufacturing environment, into the workforce.

#### Qualification Structure

To achieve the **Level 2 Certificate in Preparing to Work in a Manufacturing Environment**, learners must achieve a minimum of 21 credits/components. They must gain all 21 credits/components from Mandatory Group M.

#### Qualification Documents

A Qualification Specification and Evidence Logbook is available to centres from our website [www.futurequals.com](http://www.futurequals.com). However, specifications with indicative content or other guidance will be provided to centres upon learner registration.

#### Progression Opportunities

The **FAQ Level 2 Preparation for Working in a Manufacturing Environment** must be assessed according to the FutureQuals Assessment Principles. The full version of the FutureQuals Assessment Principles can be accessed here: [https:// www.futurequals.com/assets/AssessmentPrinciples.pdf](https://www.futurequals.com/assets/AssessmentPrinciples.pdf)
