[3] Our customer service department, like our stores, will be open 24 hours a day.

The perfect future…

…or the perfect nightmare?

Article written by Jay Hawkes
I've just been shown the future of shopping. Posh boutiques are history. Online is old hat. Old-fashioned high street shops are back!

Old-fashioned high street shops … with one big difference. No trolley. No checkout. No staff. Walk in. Grab what you need. Leave. Your account is charged automatically. 'Walk In, Walk Out'. I had to try this! So off I went.

At the shop my details were taken and a machine gave me a store card. Essential – you can't get into the shop without waving it. And it *so* worked. The door whooshed open and in I went.

Testing the system, I kept my store card in my pocket and filled my shopping bag. No basket. No trolley. No scanning. The technology 'sees' what you take and adds it to your bill. Cunningly hidden cameras observe what you take and charge your account. If you put something back again, it sees that too – you won't be charged.

Then it was time to leave. I … I just walked out! That was the oddest bit of all. I felt like a shoplifter.

But I also felt like the shop had suddenly become my kitchen cupboard. In a weird way it was 'my' shop.

A minute later, I got a message on my phone with my bill. I checked for mistakes, but it was spot on.

Consider the advantages. No more moving purchases from shelves to trolley. No more race to the cash tills, searching for the shortest queue. No more glaring at the time-waster in front. No more unloading purchases onto a conveyor belt which moves forward, or not, to suit itself. No more competition, trying to fill your bags more quickly than the cashier can scan – like two competitors racing to see who can move groceries around fastest.

Will this change the world? Maybe. Improve our lives? Maybe. In any case, we may soon not have a choice. A shop without staff is easier and cheaper to manage. Service, however impersonal, is guaranteed. I will certainly get used to it. But will I miss the personal touch? I'm not so sure.

Text 3

March to Defend Jobs

NO to Flow Shops

- **NO** to a world where you enter your local shop through a controlled-access door.
- **NO** to a world where your shopping is supervised by computer-controlled cameras.
- **NO** to a world of complete silence.
- **NO** to seeing nobody.
- **NO** to shopping without as much as a 'hello' or 'goodbye'.

NO to the hellish vision of the future which supermarket chains want to put one on every high street.

> Why? So they can get rid of our jobs. That's why!

Flow shops will destroy the livelihoods of tens of thousands of families – many barely above the breadline now – all across Britain. Is that what you want, just so you can save an extra penny off a pint of milk?

People matter. We don't want a Britain run and controlled by machines.

If we don't all stand up and say **NO** now, who will be next?

Help us fight for our jobs before they come for yours!

March with us now. Show that enough is enough.

2.00pm on Saturday 17th in the Market Square

We're not anti-technology – we're pro-people!

7	*Compare the views of the authors of Text 1 and Text 3 on the subject of Flow Stores, and how these views are conveyed.* Views: • Limited comparison of views from both texts. It presents the idea of avoiding interactions with people, having cameras, and totals being automatically calculated as positive, whereas the author of Text 3 hates the idea of not seeing anybody and of being supervised by computer-controlled cameras. This document presents no positives at all which is the opposite of Text 1 which presents only positives. How views are conveyed: • Some indication of how views have been conveyed in both documents but no comparison (e.g. writer of T1 uses images and welcoming language. The writer of T3 uses short sharp sentences to bully you into supporting the march. • Clear and explicit comparison of how views are conveyed in both documents (e.g. Writer of T1 uses friendly language in long sentences to explain everything and make the reader feel welcome and very positive about the concept of flow stores. 		• the reader of Text 3 doesn't need specific detail – the author wants them to protest against them, not find out more about them.	1 **(max 2)**
